FREER GALLERY OF ART OCCASIONAL PAPERS

The Freer Gallery of Art Occasional Papers, to be published from time to time, will present material pertaining to the cultures represented in the Freer Collection, prepared by members of the Gallery staff. Articles dealing with objects in the Freer Collection and involving original research in Near Eastern or Far Eastern language sources by scholars not associated with the Gallery may be considered for publication.

The Freer Gallery of Art Occasional Papers will not be sold by subscription, and the price of each number will be determined with reference to the cost of publication.

INTRODUCTION

A previous brief list was published in 1928 as Smithsonian Institution Publication 2963. Much additional information that has been obtained since then is incorporated in this revised version, which is now thought to contain all the essential information relating to this portion of the Freer Collections.

Dimensions are given in meters first, then in inches to the nearest $\frac{1}{8}$ inch, and represent extreme measurements of stretchers, wood panels, cardboard or paper unless otherwise defined. The first measurement in each instance represents the vertical aspect of the design.

Subject titles which are neither traditional nor known to have been given by the artist are printed within brackets. Alternative subject titles are given whenever known and are printed within parentheses.

Bold-face numerals represent the registration number in the Freer Gallery of Art catalogue system.

WHISTLER PRINTS

Notes.—Subject titles of prints and copper plates are preceded by the corresponding number in Edward G. Kennedy's Catalogue (K), "The Etched Work of Whistler."

The letters and numbers following the titles of etchings and drypoints refer to other catalogues of Whistler's work.

M. refers to *Catalogue of Whistler's Etchings and Dry-points*, by Howard Mansfield, Chicago, 1909.

Gr. refers to *Catalogue of Etchings and Dry-points by James McNeill Whistler*, the Grolier Club, New York, 1904.

T. refers to *Catalogue of the Etchings and Dry-points of J. A. M. Whistler*, by Ralph Thomas, London, 1874.

W. refers to *Whistler's Etchings, A Study and a Catalogue*, by Frederick Wedmore, 2d edition, London, 1899.

Sup. refers to *Catalogue of Etchings by J. McN. Whistler, by an Amateur; supplementary to that comp. by F. Wedmore*, New York, 1902.

Alternative titles and the designations of the particular states in which many subjects were published as parts of sets are given whenever known.

Measurements represent the plate mark unless otherwise defined, and were made in the metric scale. In converting to inches, accuracy to within $\frac{1}{16}$ inch was considered sufficient.

Many variations between the different states of some subjects as published in the Kennedy Catalogue exist in the Freer Collection and are recorded in this list as before, between, or after given Kennedy (K) states.

A list of the subjects known to have been etched by Whistler but not represented in the Freer Collection will be found at the end of the etching and drypoint section. A few of Whistler's etchings and drypoints have passed through the form of distinctive publication, and the

publisher's name is given with each individual subject in this list. The titles of the various published sets are as follows:

TWELVE ETCHINGS FROM NATURE, sometimes known as "The French Set" and erroneously as "The Brittany Set."

A SERIES OF SIXTEEN ETCHINGS OF SCENES ON THE THAMES AND OTHER SUBJECTS, known as "The Thames Set."

VENICE, TWELVE ETCHINGS, "The First Venice Set."

VENICE, SECOND SERIES, a set of twenty-six etchings, known as "The Second Venice Set." Twenty-one of these subjects were etched in Venice; the remaining five subjects were English.

FIFTY-SEVEN DEFACTED ETCHINGS AND DRY-POINTS, issued about 1879 by The Fine Arts Society, Limited, London, as *Whistler's Etchings*, bound in book form.

Bold-face numerals represent the registration number in the Freer Gallery of Art catalogue system.

The designation, etching, drypoint, or both, following the title and catalogue sources is generally based upon type of work produced by the artist in the initial state of each subject; however, there are exceptions in the Freer Collection which represent prints from later states after the original plate was worked over.

The practice of signing and dating etchings was one which Whistler, apparently, started in his early work; however, some few of his early plates were unsigned.

Later, he left the first state of many plates unsigned and added his signature in a later state, often the second; in one instance the first nine states of one etching are unsigned while the Butterfly appears in the tenth.

It is supposed that the addition of the signature or the Butterfly in these later states signified the artist's satisfaction with the work represented in these improved prints; however, the total lack of a signature in a few of his etchings did not necessarily imply his disapproval of a finished print.

WHISTLER LITHOGRAPHS AND LITHOTINTS

Notes.—Subject titles are preceded by the corresponding number in Edward G. Kennedy's Catalogue (K), *The Lithographs by Whistler*, New York, 1914. The letters T.W. following the title refer to the catalogue compiled by Thomas R. Way, *Mr. Whistler's Lithographs*, 2d edition, London, 1905. Sig. denotes signed with the Butterfly on the drawing.

Measurements denote the size of the drawing and are given both in the metric system and in inches unless otherwise defined.

Some of Whistler's lithographs and lithotints were distinctively published and each such occasion is noted after the individual title in the list.

Titles of the known subjects which are not represented in the Freer Collection follow this list.
